SEO IN 2021

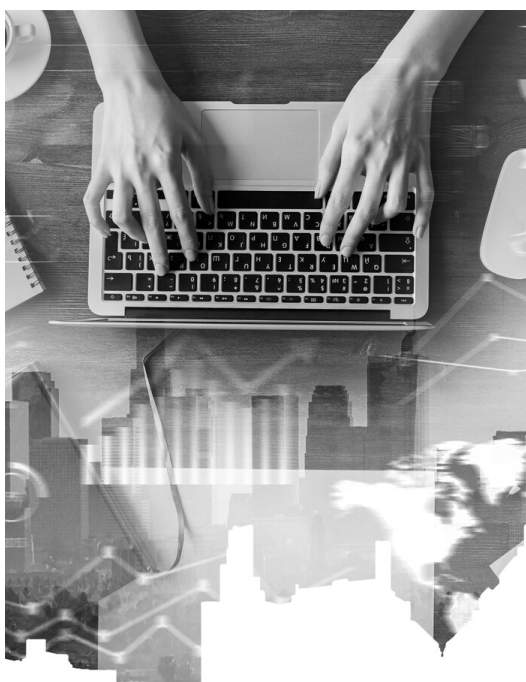

Google Search Engine algorithms and policies are continually changing with time. One can't just rank on top today with a lot of content and keywords stuffed everywhere in the website. Google needs to show the best results for a search query and they are not encouraging the keyword stuffing and it can actually kill your SEO in 2021.

New Google policies emphasizes on the User Experience, Quality of your Website, Speed, Mobile Optimization, Website Authority, Quality of Content, and not the Quantity. And of course, we need to target and plan your Keywords smartly.

In the initial audit, our company performs on your website. We highlight all the issues and improvements required to optimize it for better search engine rankings and performance.
